

## Constitutional Changes:

- General: Delete mentions of Historian, Speaker of the House, and the House of Representatives
- Specific:
  - Article III: Sect 1: Clause 3: 2 Public Relations officers (instead of one), delete historian, and add secretary (they are mentioned in the executive descriptions, just not in this clause and it's weird)
  - Clause 7: Delete project management (that isn't a current class, maybe add leadership class). Also, we don't currently have a zero period. I think that we should, and this requires further discussion.
  - Clause 8: this should be more rigorously enforced
  - Clause 9: I think having one class at the high school seems fair. Running start students who don't go to the high school at all, probably won't be able to help out much with day-to-day stuff. (After some discussion, maybe another thing could be that a Running Start student simply needs to ATTEND three classes. Nick does that and everyone's fine with it, and he is able to do great work.)
  - Sect 2: Clause 9: PR Officers (2) combine with the responsibilities of Historian and include the necessity of social media
  - clause 7: delete historian
  - Sect 3: Clause 1: We should totally have interhigh reps. That sounds awesome.
  - Sect 6: Enforce this
- Larger Take-away: There is a lot in the constitution that we should either delete or implement
- Will zero-period class ever be a thing again? It would be so beneficial, but we should delete it if we aren't going to do it. (This is Audrey's idea to bring it back, but maybe we shouldn't, as the leadership class takes the spot)
- We are deleting the positions of Historian and Speaker of the House
- School Board/Interhigh/Club Rep should be included in the constitution to cover the currently neglected duty of interhigh communication and increase the ASB's responsibility for clubs.
- The Entrepreneurial Manager should be included as a position independent of, yet connected to the treasurer. The treasurer will continue managing funds allocation, while the Entrepreneurial Manager will be responsible for ventures such as the student store and additional business ideas.

## Elections:

- We should use <https://www.ballotbin.com/> (it requires voter registration, makes voting multiple times impossible, and is all around a reputable service perfectly suited to our needs)
- We will require voter registration (we will need information like: name, grade, and email)
- Voting will be done online, during a set number of days, from any location
- (Hopefully) speeches will be done in person, filmed, and sent to students along with their voter code, in case they want to review
- the positions of School Board/Interhigh/Club Rep and Entrepreneurial manager should be added as positions which are applied for and bestowed by the ASB Advisor (More debate forthcoming on what criteria can/will be considered in this process) Both should be executive positions. As these are almost administrative positions, administrators will have the main say in who gets them.
- We need to finalize a timeline

Please consider this and thanks for reading!
